CHOATEVILLE HONOR ROLL.

The following names are the pupils
who were on the honor roll for the
week ending August 9th:
Lena Preece, Corlie Peters, Nellie
Richardson, Mary Denton, Goldie
Pierce, John Denton, Louise Richard-
son, Emily Richardson.
IDA SPICER SEMONES,
Teacher.

BREAKS A RIB.

Mrs. R. S. Byrnes (a sister of Mrs.
John E. Miles), of Lexington, attend-
ed the marriage of her niece to Prof.
A. M. Wilcox on Saturday. While ar-
ranging some floral decorations for
the house, Mrs. Byrnes slipped and
fell, her side striking upon a flower
pot, breaking a rib. Surgical attention
was at once rendered. Beyond suffer-
ing considerable pain, Mrs. Byrnes is
doing very nicely.

"REGULAR AS THE SUN"

Is an expression as old as the race.
No doubt the rising and setting of the
sun is the most regular performance
in the universe, unless it is the action
of the liver and bowels when regu-
lated with Dr. King's New Life Pills.
Guaranteed by all druggists. Price 25
cents.

BAD ACCIDENT.

While at work on a scaffold, at the
residence of Mr. John R. Sower, on
Wilkinson street, on Monday, Mr. Jas.
Gordon, a tinner, had the misfortune
to have a ladder slip from under him,
throwing him with his side on the
granitoid pavement, breaking three
ribs, so that one of them protruded
from the side.
Dr. N. M. Garrett was called and
removed the splinter of rib from his
side and adjusted the fracture.
Mr. Gordon was doing as well as
could be expected at last accounts.

OFFICER PROSTRATED BY SE- VERE HEAT.

Officer Joe B. Hamilton was pro-
strated by heat, caused by a long chase
after a drunken man, on Sunday morn-
ing last. He was unconscious for sev-
eral hours. He is doing as well as
could be expected now.

STILL THEY ARISE.

Petitions were granted at the meet-
ing of the City Council, on Monday
night, for the erection of ten more
houses in various parts of the city.
A very large number had already
been erected or were in process of
building, and the end is not yet.

LABOR DAY NATIONAL HOLIDAY.

By executive proclamation, Monday,
September 2, has been made a legal
holiday by the President for all em-
ployees of the government and labor-
ers who are employed by the day.

LOUISVILLE COMMERCIAL CLUB VISITS CAPITAL.

An excursion train bearing the
Louisville Commercial Club (en route
to the Blue Grass Fair) passed
through this city on Wednesday morn-
ing. The train stopped here long
enough for the crowd to visit the new
capital.
The crowd numbered about 750. A

large part of it went to the grounds
of the new capital, where short
speeches were delivered and an in-
spection of the building entered upon.
Col. Geo. B. Harper, president of
the Business Men's Club, and Gov.
Beckham did the honors.
Responses were made by Mayor R.
W. Blinsham and Mr. R. S. Brown.
The train was late and remained
here only about an hour.
Owing to the freight wreck, near
Lexington, the train did not pass here,
on the return trip, until after mid-
night.

FLAG FOK.

The tobacco men have about all de-
livered their 1906 crop at the pool
house and are very busy topping this
year's crop.
Mr. Henry Huette, of Hemp Ridge,
visited his brother, Mr. J. C. Huette,
and family, on last Saturday and Sun-
day.
Miss Florence Woodside, who began
her school the 8th of this month, is
now at home very sick. It is hoped
she may soon recover and continue
her school.

Miss Mary Huette attended church
at Pleasant Ridge, Sunday, with her
friend, Mr. Sam North, and sister,
Miss Elizabeth North.
Mr. Wesley McQuillen and wife, of
Bagdad, attended church Sunday at
Pleasant Ridge.

Rev. C. M. Boulton preached an ex-
cellent sermon on the subject, "And
the common people heard him glad-
ly." He did not begin the protracted
services, as was hoped, on account of
his wife's illness, but we are very
happy to know she is recovering and
will soon be well. Bro. Boulton is a
good preacher and is greatly
loved by the people of Pleasant
Ridge.

The Ladies' Aid Society meets again
next Saturday evening at Lebanon, at
3 o'clock. Every one interested is in-
vited to attend.

Lost—A young man, who lived near
Lebanon Church, who called on Miss
in the Prison to spend the rest of his
life. If found and taken to Mr. J. life.
P. Huette's the finder will receive a
reward.

Miss Myrtle North and parents vis-
ited her cousin, Miss Susie Slattery,
and parents, Sunday last.

BLACK EYES.

BOAT HOUSE AND LAUNCH GO TO BOTTOM OF RIVER.

The boat house and launch of Mr.
Henry F. Lindsey went to the bottom
at their mooring, on the South Side,
on Wednesday.

A pontoon, upon which the boat
house rested, on the north side, was
stove in by some unknown cause, and
carried both house and launch to the
bottom.

The boats were raised shortly after
their ducking. The launch was un-
hurt. The pontoon was repaired and
all is well.

I'll stop your pain free. To show
you first—before you spend a penny—
what my Pink Pain Tablets can do,
I will mail you free, a trial package
of them—Dr. Shoop's Headache Ta-
blets, . . . curative, Headache, Toothache,
Period pains, etc., are due alone to
blood congestions. Dr. Shoop's Head-
ache Tablets simply kill pain by coax-
ing away the unnatural blood pres-
sure. That is all. Address Dr.
Shoop, Racine, Wis. Sold by all drug-
gists.

STUCK NAIL IN FOOT.

Judge W. H. Sneed had the misfor-
tune to stick a nail in his foot, on
Sunday last, which laid him up for
several days. He is having considera-
ble suffering and trouble.

BACK TO PEN FOR LIFE.

"Duck" Johnson, who was sent to
the Pen some ten years since, for the
killing of Harry Mordecai, for life,
happy to know she is recovering and
will soon be well. Bro. Boulton is a
good preacher and is greatly
loved by the people of Pleasant
Ridge.

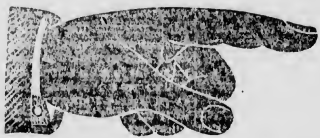

Last week Johnson "got in bad" in
the classic precincts of Craw, and
was arrested and fined for fighting
and having a concealed weapon on
board.

On Tuesday the Prison Board issued
an order for Johnson's reincarceration
in the Prison to spend the rest of his
life.

Another illustration of what "wine
and women" will do for a man.

Since his release Johnson had
worked very steadily and acceptably
for his old employer. But could not
stand the temptations of Craw.

The Judge was exhibiting a hole in his hat made by a ball fired from a pistol in the hands of the ill-fated fellow, who being tamed by the Judge with not being able to shoot, showed him how near he could come to the top of his head without breaking the skin.

REST MADE EASY.

There Will be Less Sleeplessness When Frankfort People Learn This.

Can't rest at night with a bad back. A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills. They are endorsed by Frankfort people.

Mrs. C. V. Webber, of 426 High St., Frankfort, Ky., says: "The dragging down pains in the small of my back were terrible. At night, I suffered most and fairly dreaded to go to bed for the aching after I lay down was really more than I could endure. I could hardly lie on my back at all, and if I attempted to turn to either side sharp twinges caught me in the small of my back, and as a result I have lain awake for hours suffering torture, and arose in the morning more tired than when I retired. There was also a weakness of the kidneys, the secretions being irregular and distressing, which had bothered me ever since I was a child. Not until I learned of Doan's Kidney Pills and procured a box at J. W. Gayle's drug store was I able to find anything that would give me relief. The use of this remedy gradually lessened the aching until it stopped and good, sound, refreshing sleep followed. The difficulty with the kidney secretions was also greatly relieved. As a result my health became considerably better than it had been for months before I commenced the use of Doan's Kidney Pills.

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FELL THROUGH SEWER CAP.

As the horse of the Rupert Grocery Co. was being led to their wagon to be hitched up, after the rain, on Thursday, it stepped on the top of the sewer, which slipped to one side, precipitating the hind quarters of the animal into the sewer. After considerable work it was finally rescued and was not very seriously hurt, although bruised.

SPLENDID RAIN.

On Thursday, shortly after one o'clock, this city and vicinity was visited by a splendid rain, which continued to pour down for more than an hour. All nature was refreshed and smiled again.

Te deum laudamus.

OUR INVARIABLE RULE.

It is our INVARIABLE RULE that all communications, in order to obtain publication in our paper, shall be accompanied by the name of the author, not for publication, but so that we may have authority for anything appearing in our columns. This is especially the case where the matter contained in the communication is of such a character as likely to produce controversy.

We have had several communications lately that contained matter that was good; and, had the author given his name, we would have published same. But, owing to this fact, they were consigned to the waste basket.

We would call especial attention to this just now, for many reasons, but this is enough.

ATTENTION, CITY AUTHORITIES!

A number of the best citizens of South Shelby street request us to call the attention of the city authorities, and the City Engineer, to the condition of that street, from Todd street south. It has been cut up so badly by the heavy hauling to the new capital grounds that it is almost impossible for any kind of vehicle except the heaviest and strongest wagons.

Things have gotten in such bad shape that the dairymen are refusing to deliver milk to the housekeepers of that street, which is not only a great inconvenience, but a positive hardship, as there are quite a number of infants who are dependent upon them for sustenance.

Have it attended to!

NARROW ESCAPE OF STREET CAR.

On Saturday afternoon a car going south on the street car line, jumped the track just after entering the St. Clair street bridge. It ran against a heavy beam on the side of the foot walk, on the west side of the bridge, and, swept it away, then, running against two steel uprights of the bridge, was brought up by them. Otherwise it would have jumped to the rocky shore of the river, some twenty or twenty-five feet below.

No one of the passengers or crew was hurt, the car but slightly damaged and traffic was soon resumed.

Manager Sallee thinks some obstruction was placed on the track, which caused the car to perform the "circus act."

As the grade is pretty heavy extra power is always turned on as the cars make the rise to the center of the bridge.

A GOOD ORDINANCE.

The City Council has adopted, for the first time, an ordinance forbidding minors to loaf about or enter saloons under a penalty of from \$10 to \$20 fine.

This is as it should be, and if it has been the law long ago many a fine boy would have been spared from a drunkard's grave.

ORPHAN BRIGADE TO MEET AT GLASGOW.

The meeting place for the famous Orphan Brigade, C. S. A., has been fixed at Glasgow, Warren county, the home of its last commander, the late Gen. Jos. H. Lewis.

The date will be on Saturday, September 21st.

PROGRESS AND VALUE OF TREE PLANTING.

Reports from all parts of the country show that the past season has undoubtedly been characterized by a more extensive planting of forest trees than any previous year in the United States. The work is progressing very favorably in every State in the Union.

It has been most extensive in California, in the great Middle West and in the New England States, but even in the South, where planting has been more or less limited because of existing natural forests, the scope of the work has greatly broadened.

The trees planted have been mainly hardwoods. Several large nurseries, however, report greater sales of conifers for forest planting than they have ever made before. In the Middle West catalpa, black locust, Osage orange and Russian mulberry were the favorite trees; in the North and northeast preference was given to white pine, chestnut, larch and spruce and in the South the native conifers held the lead, and in California, where the immense annual planting area has been increased to at least five times its former size, eucalyptus had practically a monopoly.

A few figures readily show the value of forest planting from a commercial standpoint. In Pawnee county, Neb., a 16-year-old catalpa plantation gave a net return of \$152.17 per acre at the time the plantation was cut. This meant an annual profit of \$6.24 per acre. A 10-year-old plantation of the same species in Kansas showed a net value of \$187.55 per acre. Still another plantation, in Nebraska, gave a net income of \$170.50 per acre when 14 years old, which amounts to an annual income of \$8.69 per acre. Several equally striking cases could be cited throughout the entire Middle West, and it is known that where the catalpa will succeed no other tree will pay so well. Good soil and moisture conditions are, however, essential for success with this tree.

Osage orange has been known to produce as high as 2,640 first-class posts and 2,272 second-class posts per acre, and it is well understood that no posts are better than those of Osage orange.

Land producing such a forest as this could hardly be put to a better use, since timber is the easiest of all crops to raise and from now on will never go begging for a market.

Red cedar in plantations 25 years old has reached a value of \$200.54 per acre.

European larch, used for fence posts or telephone posts reaches an average value of \$200 to \$300. White pine plantations 40 years old have exceeded a value of \$300 per acre, and it is known that the eucalyptus, even when grown for fuel alone, can compete as to profits with oranges.

It does not take a lifetime to get results. Catalpa often reaches a post size in from eight to ten years, and will give service as a post for from fifteen to forty years. Osage orange, which reaches post size in from twelve to fifteen years, usually lasts longer than catalpa. Black locust, though badly affected by the borer in some regions, grows about as fast as the catalpa and has almost the same post value, while it has the great advantage over catalpa of being able to thrive on poor land. European larch reaches a size suitable for telephone poles in twenty-five years. When treated with preservative it will then last from fifteen to twenty-five years. Eucalyptus makes a very heavy yield of fuel in seven years, and the crop should nearly always be cut before ten years. On favorable sites white pine will make saw timber in from forty to sixty years. Already the demand for the timber of this tree shows conclusively that the investment will undoubtedly prove very profitable.

In every region of the United States there is at least one forest tree, and generally there are several forest trees, which can be planted with a

complete assurance of commercial success if the plantation is properly established and given proper care. The government has made a very careful study of most of the forest plantations in the United States. Its publications on tree planting may be had free of charge upon application to the Forest Service, U. S. Department of Agriculture, Washington, D. C.

The studies on which they were based were made especially for the benefit of the farmers and other owners, and to prevent the waste of many thousands of dollars annually lost by planting the wrong forest trees or by improper care of plantations.

From the manner in which our natural timber has been cut it is clear that each region will have to be made as nearly self-supporting in timber growth as possible. The lesson of the past is that the right forest trees grown in the right way will bring a big profit.

THE LIMIT OF LIFE.

The most eminent medical scientists are numerous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade can not be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by all druggists. Price 50 cents.

STREET CAR JUMPS TRACK.

Another street car jumped the track at the north end of the St. Clair street bridge, on Wednesday night (at the same place the accident occurred Saturday evening).

The car smashed the wooden side rail and was only stopped by the steel uprights of the bridge.

Motorman Polsgrove and a colored man by the name of Martin Boyd were bruised up, but not seriously.

ARM BROKEN.

While riding a bicycle, on Monday Robert Nichols, son of Mr. John D. Nichols, of the Frankfort Shoe Co., collided with a tree, on Fourth Avenue, breaking his left arm at the elbow. Surgical attention was rendered and the lad is doing as well as could be expected.

Grim Grasp Caused Heart Disease.

Could Not Lie On Left Side.

Dr. Miles' Heart Cure and Nerve Cured Me.

Mrs. H. R. Jobe, formerly of Birmingham, Ala., writes from Eldredge, the same state, as follows:

"It is with the greatest pleasure that I recommend Dr. Miles' Nerve and Heart Cure. I only wish that I could tell every sufferer how much good they have done me. Last winter I had a severe attack of La Grippe, which left my heart in a very bad condition. I could not lie down for the smothering spells that would almost overcome me and the feeling of oppression around my heart. I had not been so that I could lie on my left side for a long time. I got your Heart Cure and took three bottles. I have no trouble now with my heart as I can lie on my left side as well as my right. Formerly I had suffered for years with nervous prostration. I had tried so many remedies that I had got clear out of heart of getting anything that would help me. The nerves of my heart were so affected that sometimes it would lose beats so it would seem to stop altogether. I was on the verge of a lady friend that I tried your Restorative Nerve. I felt better after the first few doses and two bottles of Nerve and one of Heart Cure made me feel like a new person. My heart is all right and my nervousness is all gone. I never fail to recommend it to others afflicted as I was."

SAD END OF A BRILLIANT CAREER.

The sad news came to this city on Saturday afternoon that Mr. James J. Fitzgerald had passed away, at his home in Louisville, after many months of suffering.

While many of us knew that Mr. Fitzgerald was dangerously ill, we still hoped that he might recover.

But, alas, alas! Cut down in the full vigor of a sturdy and promising young manhood, just when he was needed most by his family and the State. He was a brilliant, but painstaking lawyer. Earnest, honest, upright!

We have known Mr. Fitzgerald for many years and always found him the same courageous and courteous gentleman. We admired him for his many fine qualities, both of person and character.

He leaves a young wife and three children—all girls. In addition, he leaves two brothers and two sisters. All of whom mourn an affectionate husband, father and brother.

The funeral was held in Louisville, on Monday last, and was largely attended by sorrowing friends.

STAMPING WOUND.

Mrs. Dr. Critchfield and son are guests of relatives in Henry county. Miss Alice Wilkerson, of Cincinnati, is the guest of Miss Helen O. Wilkerson.

Dr. W. P. Salin and wife, of Owen county, are guests of Miss Varona Bourne.

We regret to learn that our veteran merchant, Mr. A. Ford, was victimized by the pseudo agent of the Courier-Journal. He says that the old adage "a fool and his money are soon parted," applies.

Mrs. Josie Dawson and children, of Prescott, Arizona, are visiting relatives here.

Mr. Will Marston, who is cropping on Miss Bourne's farm, has sold his growing corn and tobacco to Mr. Ollie McFarland, and will move to Indianapolis, Ind., to engage in business.

Died—Near Snierville, Mrs. Adeline Riddle, wife of Mr. Seebie Riddle, aged 25 years, of pueral fever. She was a daughter of the late Mr. Chas. Blythe. The funeral and burial took place on Sunday, at Mayville.

Announcement is made of the approaching marriage of Mr. John L. Hill and Miss Emma Wilson, daughter of Mrs. J. W. Wilson. The marriage will take place Wednesday, August 21. The groom is the oldest son of Rev. G. W. Hill.

Died—in Covington, on Tuesday, Miss Wade B. McCurdy, aged 21 years. The remains were brought here Wednesday, and the funeral and burial took place at Cedar Grove Cemetery. Elder James Clark conducted the services—he had baptized and received into the church and preached the funeral of four sisters in the family.

Mr. H. E. Hurst, who lives near Elkhorn, threshed his crop of wheat

(about 400 bushels) and left it at the yard, August 1st. On Sunday, August 4, the grain was discovered to be on fire about noon. More than half of it was destroyed and the balance so damaged as to be only good for feed. The origin of the fire is unknown.

Mr. Wm. H. Settle, brother of Mr. John Settle, of this place, died in Bourbon county last week. UNO.

RAPIDLY MATURING PLANS.

The State Board of Agriculture Announces More Details of the Kentucky State Fair to be Held in Louisville September 16-21.

The State Board of Agriculture, which recently purchased the Douglas Park Jockey Club at Louisville Fair, has not been able to close negotiations because the Title Company employed to clear the title and guarantee it has found that a part of the land bought has been dedicated to public uses and, therefore, there may be some trouble in closing the roadways; at least there will be a delay of a few months. In the meantime, the board has asked the owners of Douglas Park to lease them the grounds for holding this year's fair with the understanding that as soon as the title is cleared the property will be taken over by the State Board. This, Mr. Cella, has declined to do, it is understood, although there is a probability of the matter being adjusted within the next day or two. The State Board is determined that it will not take over the property until the title is perfect. This may mean that the fair this year will be held at Churchill Downs, where it was held last year instead of one of the home grounds of the State Fair is was hoped.

Under any circumstances, the fair is certain to be held at Louisville on the dates mentioned, and we are asked by the State Fair management to say to our readers that the plans made for the State Fair are maturing rapidly and satisfactorily, and that they can assure every Kentuckian that the fair will be the biggest ever held in the South in the way of exhibits and departments, in the way of big amusement features, in the way of music and in the way of attendance.

Ball Bros., of Woodford county, are showing their faith in their horse, Montgomery Chief, in a most substantial way. They are offering \$250 in two special premiums for best 1907 foal of Montgomery Chief and for the best foal of any age of Montgomery Chief, at the Kentucky State Fair.

ORDERED TO NAZARETH.

Sister Mary Lawrence, Sister Superior of St. Joseph's Academy, in this city, has been ordered to report to Nazareth for duty. She is an accomplished lady and will be greatly missed.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever origin, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultant, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. Col., Prof. Hare, of the Univ. of Pa., Prof. Fink, of the Univ. of Pa., Prof. Henshaw, of the Univ. of Pa., Prof. King, M. D. of Cincinnati; Prof. John M. Scudder, M. D. of Cincinnati; Prof. Edwin M. M. D. of Baltimore; Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine not only for sale in drug stores for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merit. A glance at this published formula will show that "Golden Medical Discovery" contains no poisons, harmful or habit forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as lung and throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. B. V. Pierce, Buffalo, N. Y.

Buy Furniture Economically.

Extravagance consists in buying the wrong thing at the wrong price.

Economy consists in buying the right thing at the right price.

If you are truly economical you will not buy furniture merely because it is cheap. It should be bought—first for its appropriateness—and second, for its durability.

It will give us pleasure to show you our present offerings in fine and medium priced furniture—the sort that is both appropriate and durable. And we shall also be glad to tell you of our liberal partial payment plan—a little at a time, as your income permits.

I will mail you free, to prove merits, sample of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart or The Kidneys. Troubles of the Stomach, Heart or Kidneys are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—mean stomach weakness, always. And the heart, and kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for sample and free book. THE STATE COLLEGE OF KENTUCKY, LEXINGTON, KY.

The State College of Kentucky offers the following courses, namely: Agriculture, Mechanical Engineering, Civil Engineering, Mining Engineering, Electrical Engineering, Normal School, Classical and seven Scientific courses, each of which extends over four years and leads to the Bachelor's degree. Each course is organized under a separate faculty. The general faculty, consisting of professors, assistant professors and instructors, number over fifty.

County appointees receive free tuition, privilege of residence in dormitories, fuel and lights and traveling expenses, if they remain ten consecutive months, or one collegiate year.

The laboratories and museums are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress. Graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculates last year was 901. Each department has a specialist at its head, with the necessary number of assistants.

Summer schools are provided for in Pedagogy, Engineering and Instruction in Science and the Liberal Arts.

The young women find an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all modern conveniences, hot rooms, hall for physical culture, at \$3 per week. All the courses of study in the college are open to young women upon identical conditions with those applying to males.

The attendance upon the Normal School in connection with the Department of Education last year more than doubled that of any preceding year.

The new buildings, namely, one for the Department of Education, one for Agricultural Science, and a Library Hall, are in process of erection and will be completed early in the next collegiate year.

For Catalogues, methods of obtaining appointments, information regarding courses of study and terms of admission, apply to

JAMES K. PATTERSON, Ph. D., LL. D., or to D. C. FRAZEE, Business Agent, Lexington, Ky.

Fall term begins September 12th, 1907.

says C. G. Hays, a prominent business man of Bluff, Mo., that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. "I've used it and know what I'm talking about." Guaranteed by all druggists. Price 25 cents.

ICE CREAM SUPPER.

The ladies of North Fork Baptist Church, at Switzer, will give an ice cream supper on next Wednesday evening, August 21.

If you want to have a nice time any plenty of good things to eat, give these good ladies a call. You get your money's worth and have a good time besides.

A PRACTICAL EDUCATION.

The Training of Mechanical and Electrical Engineers in Kentucky.

We take the following excellent article from the State College Bulletin:

The successful man of today is one who has an education that has a market value. This applies to all classes of men. The writer, the lawyer, the surgeon, the merchant, and the engineer can measure his value to the world largely by what men are willing to pay for his services. The conception of an education has been greatly modified in recent years. A man is educated who is skilled in doing some useful thing; who manifests an interest in all men engaged in useful work, and who is always striving to be more skillful and better informed in his own work. The theories of art, literature and philosophy do not belong to any class of men. The man who is engaged in productive work should find first that culture that comes from doing his work well, but his happiness and breadth of life will be increased if he finds some of the gems in the world of literature and art.

The technical school is responsible to a large degree for the present status of the science of engineering. Machines today are built by men well versed in the refinements of mechanical engineering. The great industries of this country are continually looking for young men who have a scientific training in the art of machine designing and power transmission. The steam engine presents each year new possibilities, and the evolution in this direction has recently taken shape in the steam turbine. The gas engine is in the formative period and the allowable use of denatured alcohol will stimulate the use of this power. The recent large uses of available water power, and the growth of the interior, and railway lines offer great possibilities to the highly trained mechanical engineer.

Kentucky has not been slow to recognize the fact that she must provide for her sons a great school in mechanical and electrical engineering in order to equip them for a work that offers large opportunities in this age of industrial achievements. For fifteen years the State College of Kentucky has been sending her mechanical and electrical engineers to all parts of the country where they have achieved great distinction with the largest machine, engine and electrical apparatus building concerns. Kentucky boys have made such a record that there is a demand for State College mechanical and electrical engineers that cannot be supplied. In the class of 1906 there were thirty men and there were over one hundred applications for these graduates. There were eleven applicants for State College men to take up teaching work in mechanical and electrical engineering in some of the best known universities in this country. The class of 1907 all secured good positions. No State in the Union makes such liberal concessions to her young men to gain an education as does Kentucky. A county appointed student not only gets his tuition, maintenance fee and room rent free, but the Legislature has actually provided that he receive his traveling expenses from his home to the college and return. The expenses for any resident of the State, whether he be appointed or not, are reduced to a

minimum. Every young Kentuckian should recognize that the State has put at his command the means of obtaining an education in mechanics and electrical engineering that is second to none. He should further appreciate the fact that the State is making provisions that would cost each student at least two hundred dollars a year for tuition should all the expenses of his training be gotten in a school not supported by State or Federal aid.

BAD FREIGHT WRECK ON L. & N.
R. R.

Two cars of a heavy freight train left the track, just beyond Payne's Depot, on Wednesday afternoon, and traffic was closed until about nine o'clock that night, when the C. & O. passenger train from the east succeeded in getting through the blockade. Quite a number of trains were sidetracked by the accident, and the Louisville Commercial Club excursion train did not reach here until midnight.
